**APPLICATION ESSAYS**

Prepare and attach two short essays on the following topics. Each essay should be approximately 500 words (one page), single spaced, with 12 point type.

**Essay 1: Why should engineers be concerned about public policy issues and what can they contribute to the process?**

**Essay 2: What specific technology-related public policy issue would you like to explore during the 9-week program, and why?**

There are no right or wrong answers. The essays are reviewed primarily as samples of your writing. They also help your sponsoring societies better understand your interests and your grasp of policy issues. If chosen for the WISE program, your answer to question (2) does not constitute a topic selection; topics will be finalized after consultation with your ANS mentor.
