**WASHINGTON INTERNSHIPS  
FOR STUDENTS OF ENGINEERING  
2021 Summer Program  
(Sunday 30 May – Saturday 31 July)**

## **APPLICATION INSTRUCTIONS**

Applicant must be:

- (1) a Junior or Senior engineering student (must have physically attended a university or college at least 6 semesters, or equivalent if school has a quarter system) or a recent engineering graduate beginning study in a graduate-level, technology public policy-related program;
- (2) a citizen or legal permanent resident of the United States; and
- (3) a student (or higher grade) member of IEEE, Inc.

Only completed applications will be considered. A complete application includes the following:

- (1) the completed application form (including the TWO requested essays);
- (2) a copy of your transcript(s) (official transcript required); and
- (3) TWO references from college professors.

Submit your application electronically, including references, by email to:

Kayla Henneberry  
Email: [k.henneberry@ieee.org](mailto:k.henneberry@ieee.org)

Transcripts may be emailed or mailed to:

## WISE APPLICATION FORM (Cont'd)

### ACTIVITIES

List any IEEE student office(s) held (with years) along with any IEEE student or other extra-curricular activities in which you have participated in the last three-four years:

### APPLICATION ESSAYS

Prepare two short essays on the following topics. Each essay should be approximately 500 words (one page), single spaced, with 12-point type.

Essay 1: Why should engineers be concerned about public policy issues and what can they contribute to the process?

Essay 2: What specific technology-related public policy issue would you like to explore during the 9-week program and why?

There are no right or wrong answers. The essays are reviewed primarily as samples of your writing. They also help your sponsoring society better understand your interests and your grasp of public policy issues.

If chosen for the WISE program, your answer to question (2) does not constitute a topic selection; topics will be finalized after consultation with your sponsoring society.

FOR STUDENTS OF ENGINEERING  
2021 Summer Program**

**REFERENCE**

NOTE TO APPLICANT: Please provide a copy of this form electronically to both of your chosen references.

Each summer, the WISE program brings undergraduate engineering students to Washington to learn about the intersection of science and technology and public policy. WISE interns independently conduct research – which includes visiting federal agencies and think tanks, attending meetings and hearings, and interviewing public policy makers from all three branches of government – and write and orally present a public policy paper, complete with recommendations, on a specific science and engineering issue of interest to both the student and the sponsoring organization. As part of the selection process, each applicant is requested to submit two references.
